Local Office Candidates Highlighted on PDC Homepage

Olympia-The Public Disclosure Commission is highlighting campaign finance information on the PDC homepage for selected campaigns during the 2003 election. Information posted on the PDC web site will allow the public instant access to details of contributions received by the selected races.

The PDC Internet site provides contribution and expenditure totals for all candidates and political committees, but detailed contributor information will now be available for selected 2003 local office elections as well as candidates in the 19th legislative district, committees supporting or opposing Initiative 841 and electronic filers.

The database query system allows a user to sort campaign finance data many different ways. Database sorts can be made using one or more of the following criteria: name, date, amount, city, state, zip code, contributor name, description, employer and occupation.

To access the 2003 highlighted elections, go to www.pdc.wa.gov and under 2003 Election select 2003 Highlighted Campaigns.
